The lessons are held on Fridays from 10:00 AM to 1:00 PM in Campus Technologiepark Zwijnaarde – building 131 – room Galileo Ferraris, second floor (60.13.120.007).

The exercises/practicals are included in those 3 hours, and the solutions to those relatively short exercises must be submitted each time at the next lesson.

After the Easter holidays, you will also have to do peer-teaching: you will have to prepare and deliver a short lesson on a sub-topic themselves. This material must also be studied for the oral exam.

There will be an oral exam in June

The current planning, which may of course include changes, is this:

#	When	Course title	Lecturers
1	2025-02-14	Introduction	Pieter Colpaert and Ben De Meester
